

Mac Youth COVID-19 Wellness Policy

The health of all our students and families is important to us, so we have put the following guidelines in place. If you are uncomfortable participating in any youth events for the time being due to the current health crisis, know that we completely understand and will do what we can to still minister to you and your family. This policy outlines the procedures, guidelines, and actions we will take as a youth group for all youth-related events, programs, and activities. **Parents are responsible for reviewing these guidelines with your student.** We recognize following these guidelines is easier said than done in a social ministry setting, but we will do our best to adhere to them in order to avoid transmitting any viruses.

Protocols & Procedures

- Everyone must bring a face mask to use if/when needed.
- We will provide soap and/or hand sanitizer and will clean and sanitize frequently touched objects and surfaces.
- Masks will be utilized when social distancing can not happen. Mask will not be required when sitting down in spaced out (6ft apart) seating.
- Food service will be done by people wearing masks and gloves; there will be no free-for-all or self-service.
- If anyone develops a fever or becomes symptomatic, they will immediately be isolated and we will call their parents for pick-up.
- If you've been in close contact with anyone sick or running a fever, do NOT come to any event until you are 100% sure you did not contract the illness.

Social Distancing Guidelines

- Limit face-to-face contact with others.
- Avoid sharing or passing objects around to other people.
- Stay home when sick, running a fever, and/or symptomatic.

Preventative Actions

- Frequently wash all surfaces of your hands for 20 seconds.
- Cover coughs and sneezes.
- Avoid touching your face and other people (including hugs, holding hands, shaking hands, etc).
- DO NOT share food and drinks with others.
